

AI in Business Communication

Artificial intelligence (AI) is on the rise, especially when it comes to the way businesses communicate with automated chatbots, automated emails and replies, online ordering, and more. Further, the way they find prospects and sift through hundreds of resumes has also seen AI developments that allow them to sort faster and eliminate bias, but that can also increase the pool size. [Read more](#) to see how AI is changing for recruiters.

For this assignment, complete parts 1-3 below.

PART 1: SUBMIT FOR FEEDBACK

Submit a PDF of your resume to ChatGPT and ask it to review the resume. Then, send a link to your LinkedIn profile to ChatGPT and ask it to review the profile. Summarize the ChatGPT feedback for both the resume and profile. Indicate if you agree or disagree with the feedback, explaining why.

PART 2: REVISE AND ATTACH

Using the ChatGPT feedback, make at least three of the suggested revisions to your resume and at least three of the suggested revisions to your LinkedIn profile. Once finished, attach both the revised resume PDF and your LinkedIn profile link to this assignment.

PART 3: CONCLUSION

What other tasks can you think of that ChatGPT could help you with as you prepare to enter the industry?

Note: Stukent is not affiliated with ChatGPT.
